**Scholarship Application Available Online**

The Virginia Water Well Association is excited to promote the 2016 application for a \$1,000 scholarship to a student for the 2016-2017 academic year.

Please encourage students you know to apply before January 1st. Complete application and form are located online at the VWVA website; [www.VAWaterWellAssociation.org](http://www.VAWaterWellAssociation.org).

# Fall Field Day 2015

DATE: **Friday, October 9th**

TIME: **7:00 AM - 5:00 PM**

LOCATION: **East of 11484 Oakland Drive  
Exmore, Virginia 23350**

LODGING: **Hampton Inn  
4129 Lankford Highway  
Exmore, VA 23350  
(757) 442-7722  
\$65/Night + Tax**

**BUNDICK**  
**WATER & SEWAGE SYSTEMS**

This Year's Host

REGISTER TODAY!

Form is included in newsletter and it can be downloaded from the VWWA website under 'Events'.

CROSS BOW TURKEY

SHOOT

.....

GPS COORDINATE

GAME BY DEQ

.....

BLACK POWDER GUN

RAFFLE

This year we are heading to the eastern shore! Bundick Well & Pump is hosting the day of demonstration to include the construction of a 4.5" coastal plain well for the Christian Shore Academy located in Exmore. The day will consist of demonstrations appropriate for the fulfillment of the Groundwater Withdrawl Permit issued from the Department of Environmental Quality. The permit is issued for projects within the Eastern Groundwater Mangament Area of Virginia.

Registration will open at 7:00 AM with breakfast and the day will end at 5:00 PM. Lunch will be provided in addition to fun activities such as, a Turkey Shoot for a prize and a coordinate game with DEQ! Bring your GPS locating devices or your smart phones to interact with DEQ's mapping software real-time! Eastern Shore Outfitters are supplying the cross bow for the shoot and will be present at the event to display some of their other goods.

As always, there will be a Black Powder Gun Raffle. Be sure to get your ticket!

On July 1, 2015, the Virginia Department of Environmental Quality (DEQ) conducted a mass mailing to licensed water well systems providers regarding new well registration requirements within Groundwater Management Areas (GWMAs), and to provide a copy of a new GW-2/Uniform Water Well Completion Report (UWWCR). DEQ and the Virginia Department of Health (VDH) have received a number of calls regarding the mailing, and would like to clarify several points.

1. The new GW-2/UWWCR was developed to create a single statewide form, accepted by both DEQ and VDH and is to be used for reporting all well construction and abandonment information.

2. Certified water well system providers are required to register newly constructed wells within a GWMA with DEQ (see Va. Code Section 62.1-258).

3. The new form was developed to capture information for a number of different well construction types: waterworks; observation/monitoring wells; and private wells. Some fields within the form may not be applicable to all well construction types. Please complete all fields that are applicable to your particular wells construction and as required by applicable laws and regulations.

a. You should include: 1) Contact information, including the owner's and certified water well system providers name and mailing address; 2) The well location, including the physical address, tax map number, or GPIN number of the property at which the well is located, the subdivision name and appropriate section, block and lot numbers, if applicable; and the latitude, longitude, and datum of the well; 3) The type of use of the well water; 4) Well construction information, including; the well designation name or number, the start and completion dates of well construction, the depth of the well and borehole depth, hole sizes, height of casing above the land surface, size, depth, and material weight per foot or wall thickness of the casing, size, type, and mesh of the screen or water zones, and the type of grout, grouting method, and type of seal; 5) If a pump test is conducted, the pump test information, including the date and duration of test, pre-pumped static water level; and the stabilized measured pumping level and yield; 7) Production pump intake depth; 8) Drillers log; and, 9) The certified water well system provider's certification statement.

b. For Geothermal Well Systems the following apply:

· Open looped system, complete an individual GW-2/UWWCR form for each well.

· Closed loop system, complete a single GW-2/UWWCR form for a single well and include system summary information describing the number of wells and general footprint of the well locations.

4. A fillable PDF version of the new form is now available and will be posted on the DEQ and VDH websites.

5. A GW-2/UWWCR guidance document will soon be available to clarify any of the fields listed on the form.

If you have any questions or comments on the new form contact: (for DEQ) Craig Nicol at [craig.nicol@deq.virginia.gov](mailto:craig.nicol@deq.virginia.gov); (for VDH private wells) Lance Gregory at [lance.gregory@vdh.virginia.gov](mailto:lance.gregory@vdh.virginia.gov); (for VDH waterworks) Roy Soto at [roy.soto@vdh.virginia.gov](mailto:roy.soto@vdh.virginia.gov).

# FLOMATIC® VALVE

*High Quality Valves Built to Last ...*

## Enviro-Check® Valve with a 5 - year warranty America's first choice.

The Enviro-Check® valves are made from the finest unleaded material which provide long service life and superior performance. During the last 40 years, Flomatic has earned industry leadership through the stem-less poppet design which has led to several patents.

Flomatic's valves are used by more pump manufactures than any other valve on the market. Use only Flomatic Valves, with an industry proven design. Call Flomatic at (800) 833-2040; fax: (800) 314-3155 or visit our website at [www.flomatic.com](http://www.flomatic.com). You can also e-mail us at [flomatic@flomatic.com](mailto:flomatic@flomatic.com).
