*“I am honored to be the current president of the Virginia Water Well Association. I want to thank all the members that attended our winter conference. Thanks to you, this year’s conference was a great success and lots of fun also! We hope you will be able to attend the South Atlantic Jubilee and that Virginia will have good representation. As we move toward what we hope will be a busy summer for us all, Christina will keep you aware of what is happening within our association.*

*Our board has been addressing suggestions made during the winter conference; we are here to serve you and to respond to any suggestions or concerns you have. As president, I would like to challenge each of you to bring a new member into the Virginia Water Well Association on 2014. The more representation we have in our industry, the more we can accomplish together. I wish you a safe and successful year!”*  
- Mr. Jimmy Bundick | President

## VWWA OBJECTIVES

*The Virginia Water Well Association was established in June, 1949. The purposes, as set forth in the Association's original Constitution, are as relevant today as they were in 1949:*

*To assist, promote, encourage, and support the interests and welfare of the ground water industries in all phases generally, and in particular within the Commonwealth of Virginia;*

*To foster, aid and promote scientific education, standards, research, and techniques in order to improve methods of well construction and development, and to advance the science of groundwater hydrology;*

*To promote harmony and cooperation between well contractors, water treatment installers, onsite waste water systems installers and geothermal installers as well as governmental and scientific agencies relevant to the proper development and protection of groundwater supplies;*

*To encourage cooperation of all interested groups relative to the improvement of drilling, pumping equipment, water treatment, waste water and geothermal technologies;*

*To encourage, serve assist and promote close cooperation with the National Ground Water Association, Inc.;*

*To collect, analyze and disseminate to the public facts about the role of the water well industry and the onsite water industries in general in the economy of the Commonwealth of Virginia and of the nation; and,*

*To advance generally the mutual interests of all those engaged in the onsite groundwater industries, in their own and in the public interest.*

**Fall Field Day 2014 - Friday, September 19th**  
Join us for a full day of demonstration and education of varying degrees! Location is set for Dorset Road in Powhatan County.

**Winter Conference 2015 - February 18-20th**  
Move forward with the industry and welcome a breathe of fresh air as we eagerly anticipate exciting new advancements in education, skills, technology and the way we interact with one another!

The VWWA has partnered with the VA Tech Cooperative Extension in supporting their Well Check Program which provides a platform and structure for well inspections. Look for future courses at our events as well as a public session to provide education on the value of private water well systems.

**Driller Burned  
In Well Accident  
Dies of Injuries**

Thomas Goode Royall, 50, of  
6933 Walmsley Blvd., a well  
driller for Royall Well Co., died  
yesterday of burns he received  
February 26.

The accident occurred on New  
Bridge rd. in Chesterfield county  
where Royall had been working  
on the carburetor of a well  
drilling machine. He spilled  
gasoline on his clothes, which  
ignited when wind whipped  
sparks from a bucket of coals  
that had been used for warming.

He is survived by a son,  
Thomas Goode Royall Jr. of the  
United States Navy; his mother,  
Mrs. Essie Royall Taylor of  
Richmond; two sisters, Mrs.  
William O. Rosser Jr. of  
Whitakers, N. C., and Mrs.  
Herbert C. Beck of Richmond;  
four brothers, Turner A. and  
John Edward Royall, both of  
Petersburg, and Jessie L. and  
George E. Royall, both of Rich-  
mond.

A funeral service will be held  
at 10 a.m. Monday at Joseph W.

October 24, 1963 -

*“The individual state association is important. I believe, to the drillers in the state. I believe that it is important to the drillers in the state as a lobbying association that the national would be. ...The Nominating Committee is going to have to come up with some nominations for officers, and we certainly do want to pick people who will be as active as possible in keeping this association alive and before the drillers of the state and before the various individual action that might or might not be in the general interest of the industry and of the people the industry serves.”*

*-Garland S. Sydnor, President*

*Upcoming Events*

“Today, Royall Pump & Well Co., Inc. is still helping Virginian citizens get water from the earth. The business has grown and changed from the small community enterprise that Jesse founded in 1950. Jesse sold the brick business along the way to concentrate on providing his neighbors in the area with precious water.”

- Excerpted from Royall Pump and Well website. [www.RoyallPumpandWell.com/aboutus](http://www.RoyallPumpandWell.com/aboutus)

## PAC - Political Action Committee

This account enables the association to provide a foundation to support our legislative objectives through lobbying to fight proposed bills or generate our own. There have been multiple bills that have passed through our General Assembly that could have regulated our scope of work to a percentage of what our current licensed Water Well System Providers are certified to complete. By the action of VWWA members, the industry in which you serve has had a voice in what bills should and should not be passed. In order to continue to have a presence in state regulations, we encourage participation from our active water well industry membership.

Find below the list of bills the association kept their eye on and took action where necessary this year.

## 2014 General Assembly Session

- HB 253 Alternative onsite sewage systems; licensure of installers
- HB 409 Health, Department of; onsite sewage system design, report.
- HB 495 Sewer & Water connections, mandatory; adds Montgomery County to list of localities that may require.
- HB 654 Wetland and stream mitigation banks; hydrologic unit boundaries.
- HB 766 Service districts; energy and water conservation and management services.
- HB 915 State-owned uplands; hydraulic fracturing.
- HB 1177 Safe drinking water; local private well testing requirements.
- SB 48 Eastern Virginia Groundwater Management Area; prohibition on oil and gas drilling.
- SB 547 Uranium exploration; sampling of well activity.
- SB 657 Alternative onsite sewage system installers, etc.; applicant not required to pass an examination.
- SB 671 Water; reporting usage.

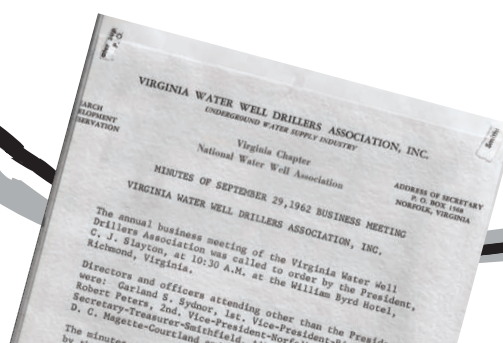

### Well drillers licensing proposed

The State Water Study Commission has voted to recommend the adoption of legislation that would regulate the licensing of well drillers and give the State the authority to regulate the industry.

Some members of the study unit complained at a meeting yesterday that the well-drill-

A COMMITTEE WAS COMPOSED TO STUDY THE FAIRFAX COUNTY LAW FOR LICENSING AND BONDING WELL DRILLERS; PASSED BY THE COUNTY GOVERNING BOARD.

### Calvin Norris Annual Service Award

The Calvin Norris Annual Service Award is hereby established at the 1993 Fall meeting of the Virginia Water Well Association. The Award will be used to honor VWWA members who demonstrate outstanding service to the Association and, by so doing, help the Association maintain its professional status and achieve its purposes.

The Service Award is named in honor of Calvin Norris, who, for many years, has devoted time and energy to helping the Virginia Water Well Association accomplish its goals. Calvin will be the first recipient of the Award at the 1993 VWWA Annual Conference and Trade Show. From that point onward, each time the Award is presented to a deserving VWWA member, Calvin's dedication to the Association will once again be remembered.

The Virginia Water Well Association cherishes its association with Calvin and looks forward to his continued involvement.
