#### **VWWA OBJECTIVES**

The Virginia Water Well Association was established in June, 1949. The purposes, as set forth in the Association's original Constitution, are as relevant today as they were in 1949:

To assist, promote, encourage, and support the interests and welfare of the ground water industries in all phases generally, and in particular within the Commonwealth of Virginia;

To foster, aid and promote scientific education, standards, research, and techniques in order to improve methods of well construction and development, and to advance the science of groundwater hydrology

To promote harmony and cooperation between well contractors, water treatment installers, onsite waste water systems installers and geothermal installers as well as governmental and scientific agencies relevant to the proper development and protection of groundwater supplies;

To encourage cooperation of all interested groups relative to the improvement of drilling, pumping equipment, water treatment, waste water and geothermal technologies;

To encourage, serve assist and promote close cooperation with the National Ground Water Association, Inc.,

To collect, analyze and disseminate to the public facts about the role of the water well industry and the onsite water industries in general in the economy of the Commonwealth of Virginia and of the nation; and, To advance generally the mutual interests of all those engaged in the onsite groundwater industries, in their own and in the public interest.

## WINTER CONFERENCE 2015

# February 18<sup>th</sup> - 20<sup>th</sup>

DoubleTree Hotel by Hilton. Midlothian, Virginia

2/18 - Wednesday

8:30 AM - 10:00 AM Opening Ceremony

10:30 AM Trade Show Opens

1:30 PM - 5PM Classes

6:00 PM - 3rd Annual Jam Session

2/19 - Thursday

7:00 AM Breakfast & General Meeting

8:30AM - 5:00 PM Classes

8:30 AM - 1:30 PM Trade Show Open

6:00 PM - 11:00 PM Banquet & Auction

2/20 - Friday

8:00 AM - 10:00 AM RoundTable Discussion

## **Registration is Open!**

## Water Well Trust Receives \$140,000 USDA Household Water Well Systems Grant

#### FOR IMMEDIATE RELEASE

WASHINGTON, D.C., Oct. 27, 2014 -- The Water Well Trust, the only national nonprofit helping Americans get access to a clean, safe water supply, has received a \$140,000 grant from the U.S. Department of Agriculture's Household Water Well Systems program for a project to increase potable water availability to rural households in northwest Arkansas and Oklahoma.

The Water Well Trust will contribute a 51% match towards this project, or \$71,400. These funds were donated by Water Systems Council members.

The USDA grant will fund the Water Well Trust project in a high-need, low-resource rural target area composed of five counties in northwest Arkansas (Benton, Madison, Marion, Crawford and Franklin counties) and one contiguous county across the Oklahoma border (Sequoyah County).

Over the next year, the USDA grant monies will be used to drill or rehabilitate at least 19 water wells in these six counties, providing at least 145 individuals with new access to safe drinking water. The grant monies will also provide long-term, low-interest loans to applicants seeking new or improved water wells in the six-county area, many of whom have been on a waiting list maintained by the Water Well Trust since 2012.

The Water Well Trust was established by the Water Systems Council in 2010 to provide clean, sanitary drinking water to Americans who lack access to a reliable water supply and to construct and document small community water systems using water wells to demonstrate that these systems are more economical.

In 2012-13, the Water Well Trust completed two small water well projects using federal, state, and WWT donated funds. WWT also set up financing for the well recipients to pay back a portion of the donated funds. The proven financing capability of the Water Well Trust was instrumental in helping to meet the requirements to secure the USDA grant.

In 2014, the Water Well Trust completed its third project in Ben Hill County, GA, replacing an entire water system for a small community. Engineering estimates to replace the existing, failed water system in Ben Hill County were in excess of \$600,000. The Water Well Trust replaced the system with donated WWT funds and county funds for just over \$81,000 -- an 86% savings.

For more information, visit waterwellltrust.org.

### 2015 Legislation

62.1-258 Amended to require drillers to register with the Department of Environmental Quality new wells constructed in ground water management areas.

62.1-259 Amending the Ground Water Management Act to require a ground water withdrawal permit for a subdivision in a groundwater management area that will result in total withdrawals of 300,000 gallons or more a month.

\*Visit the website for complete proposed legislation text.

### 2015 Scholarship

If you or someone within your family is in need of some extra cash for school, have them fill out the Scholarship Application and turn it into the VWWA office the first week of January! The receipient will be recognized at the Winter Conference in February.

Application is downloadable from the website or call to have the form faxed or mailed.

**Fenton Well Services** 

From morning to evening over 12 tailgating vendors lined the hill crest promoting their product and engaging with over 175 attendees as they transitioned from the tent location to the adjacent hill top where a live demonstration was underway utilizing the Foremost manufactured Dual Rotary Drill to construct an 8" borehole with plain end steel casing and drive shoe into bedrock. The demonstration provided great insight into how to operate this type of machinery promoting a level of comfort to the contractor attendees should they choose to incorporate this viable and realistic addition to their drilling services for a thriving business.

The Department of Environmental Quality added an hour of insight to the local water movement from monitoring the multiple wells on the property. They also tested out some new equipment which located the bottom of a 1,000 foot well and marked it at grade to visually showcase the 50'+ offset from a conventional drilling rig.

At the day's conclusion; manufacturers, contractors, health sanitarians, and suppliers enjoyed the outdoor setting for a day of demonstration and connection while enjoying each other's presence with two raffles and dunk tank occupied by Wayne Fenton, a director of the association!

Thank you for coming out and spending the day with us!

Enviro-Check Valve with a 5 - year warranty America's first choice.

The Enviro-Check® valves are made from the finest unleaded material which provide long service life and superior performance. During the last 40 years, Flomatic has earned industry leadership through the stem-less poppet design which has led to several patents.

Flomatic's valves are used by more pump manufactures than any other valve on the market. Use only Flomatic Valves,

with an industry proven design. Call Flomatic at (800) 833-2040; fax: (800) 314-3155 or visit our

website at www.flomatic.com. You can also e-mail us at flomatic@flomatic.com.
